VERSION 19.9.2020

All of our consultations are free of charge with our doctors, nurses and dermal therapists.

We pride ourselves on providing thorough consultations and tailored treatment plans to suit individual patients' needs.

Your best skin starts here.

Wrinkle Relaxers

Wrinkle relaxers are used to stop the movement of muscles in the face to varying degrees. This gives the overlying skin the chance to rest and improve the appearance of expression lines. Static lines that are present at rest may require multiple treatments or be coupled with dermal fillers for best results. The results can last up to 3-4 months.

Wrinkle relaxers can treat wrinkles in many areas of the face, including:

- Forehead
- Frown Lines
- Crow's Feet
- Bunny Lines
- Chin Dimples

They can also be used to treat:

- Masseter Muscles (for teeth grinding and facial slimming)
- Gummy Smile
- Hyperhidrosis (excessive sweating)
- Platysmal or Neck Bands

How much do they cost?

Due to strict advertising guidelines, we cannot name the brand of wrinkle relaxers as they are a schedule 4, prescription only medication.

However – there are two main brands. Your injector can run you through the differences at your appointment. We charge per unit for the wrinkle relaxer treatment.

The number of units needed depends on the area treated and individual muscle strength and aesthetic and preferences.

Wrinkle Relaxer Type 1 - \$11.50 per unit

Wrinkle Relaxer Type 2 - \$4 per unit

Wrinkle Relaxer Promotions

Type 1 is \$10 per unit and Type 2 is \$3.50 at each location on the following days:

Inglewood - Mad Monday

Currumbine – Treat Yourself Tuesday

Subiaco – Wrinkle Free Wednesday

Dermal Fillers

Fillers are used to plump out deeper lines or add volume and fullness to a variety of areas. They are made from a naturally occurring complex sugar. This is naturally metabolised by the body. The longevity of the product depends on the product, the amount used, and an individual's metabolic rate.

Dermal fillers can treat volume loss and fine lines in many areas of the face, including:

- Lips
- Cheeks
- Jawline
- Chin
- Non-surgical Rhinoplasty
- Tear Troughs

How much do they cost?

Due to strict advertising guidelines, we cannot name the brand of dermal filler we use as they are a schedule 4, prescription only medication. Your injector can run you through the differences at your appointment.

Standard Filler \$399 – most commonly used in the lips

Thicker Filler \$429 – also for use in the lips, but with longer lasting results

Hydrator Filler \$550 per ml – boost the skin's hydration

Volumiser Filler \$600 per ml – for cheeks, chin, tear troughs and jawline

Jawline Filler \$650 per ml – commonly used for jawlines

Skin Booster \$300 per ml – boost the skin's hydration

Non Surgical Rhinoplasty (Nose Filler) – only performed by Dr Mela Brankov, prices start at \$400

Double Chin Injections

This treatment permanently dissolves submental fat under the chin. The injections are made of an acid which is naturally occurring in the body. When injected into an area containing fat cells, such as the double chin, it dissolves and destroys the fat within that area. The results are permanent.

Pricing starts at \$2000.

Platelet Rich Plasma

Platelet-rich plasma injections (more commonly known as the “Vampire Facial”) is an approach appealing to those who want a more natural method to facial rejuvenation. It’s regeneration using your own blood. Platelet Rich Plasma will stimulate and increase collagen production, improve skin imperfections, dark under eyes and improve elasticity, tone and thickness.

For best results, 3 treatments are required. We offer buy 2, get the third treatment half price. Please note, this must be purchased upfront.

Scalp (for hair re-growth) \$800 (3 vials)

Full Face \$650 (2 vials)

Half Face \$400 (1 vial)

Around Lips \$300 (1 vial)

Under Eyes \$300 (1 vial)

Mesotherapy

Mesotherapy is a technique which involves infusing or injecting active solutions into the skin to rejuvenate and enhance its appearance. It is used to treat the following skin concerns:

- Dryness and dehydration
- Fine lines and wrinkles
- Uneven skin texture
- Pigmentation
- Skin laxity and sagging
- Puffiness and localised fat
- Cellulite
- Scars
- Acne
- Sun damage

Depending on your skin concerns, we will use a specialised ampule cocktail to enhance the treatment. The mesotherapy technique gives quick results with minimal side effects, perfect for anyone wanting to improve the texture and tone of their skin.

How much do they cost?

The price of treatment depends on the ampule cocktail used – starting at \$189 for a full face. Ask your injector for more information during your consultation.

LASER TREATMENTS

Fraxel

Fraxel is a non-invasive laser therapy. It treats a fraction of tissue at a time whilst leaving the surrounding tissue intact. This encourages the skin to heal faster than when treated with traditional lasers. Fraxel can help reverse the visible signs of aging, pigmentation and scarring.

Full Face \$950

Face and Neck \$1200

Neck and Décolletage \$1300

Hands \$499

Fraxel Friday Promotion

A full face Fraxel treatment is \$750 on Fridays. For longer lasting results – we recommend good home care. Aspect Doctor's medical grade "Post Care Kit" has everything you'll need.

Normally \$129 – with the Fraxel Friday promotion – just \$49.

Clear + Brilliant

Clear + Brilliant uses the same fractionated technology as Fraxel but focuses more on superficial resurfacing of the skin and age prevention. It's a great treatment option before an event to illuminate the skin and reduce the appearance of pores.

Full Face \$380

Palomar

Leg Veins

The Palomar Lux 1064nm targets and constricts blood vessels that cause spider veins in the leg without harming surrounding tissue.

From \$350

Scar and Stretch Mark Removal

The Palomar Icon 1540nm is a more comfortable alternative to surgery for acne scars and surgical scars, with remarkable results on any skin type, including very light and very dark skin.

ADVANCED SKIN TREATMENTS

Venus Versa Tribella

The Venus Versa is a versatile multi-application platform that provides Intense Pulsed Light (IPL), Multi-Polar Radio Frequency and Nano-Fractional Radio Frequency to target various concerns in a non-invasive manner.

Tribella is a combination of all three modalities to enhance skin tone, tightness and texture all in one and is the ULTIMATE non-surgical skin rejuvenation.

Step 1 – Photo-rejuvenation

Intense pulsed light (IPL) is used to treat epidermal pigment and vascularity, leaving the skin with a clear complexion.

Step 2 – Anti Aging

Diamond polar radio frequency tightens and firms the skin.

Step 3 – Resurfacing

Nano-Fractional Radio Frequency provides skin resurfacing by selectively heating the dermis which initiates collagen remodelling and fibroblast stimulation.

Depending on the individual, between 1-3 treatments are recommended.

Full face \$850

Full face x3 \$2400

Venus Viva

The Venus Viva uses Nano-Fractional Radio Frequency to provide skin resurfacing by selectively heating the dermis which initiates collagen remodelling and fibroblast stimulation. It is indicated for scarring, fine lines and wrinkles, open pores and general skin resurfacing and rejuvenation.

Full face \$450

Add-on face, neck and décolletage \$80 per area

HydraFacial

The HydraFacial is a multi-step treatment which promotes the health and hydration of the skin. The machine uses Vortex Fusion technology to cleanse, exfoliate, extract and hydrate the skin. The skin is instantly brighter and hydrated with virtually no downtime.
